

NCRI Future of Surgery workshop series: Workshop 5 Surgery for Metastatic Disease

 Tuesday 21 March 2017

 Royal College of Surgeons of England, 35-43 Lincoln's Inn Fields, London WC2A 3PE

You are invited to shape the future of cancer surgical trials at this multidisciplinary NCRI/RCS event. We welcome surgical consultants, trainees, patients, methodologists, trial unit staff and funders to this interactive workshop which aims to create recommendations for future surgical research priorities in surgery for metastatic disease.

Key topics include:

- Resection of metastatic disease
- Surgery vs systemic therapy
- Surgical and other loco-regional treatment of metastatic disease to lung, liver, bone and brain
- Management of the primary tumour in the presence of metastatic disease
- Imaging metastatic burden

To register, please visit www.ncri.org.uk/initiatives/surgery or email victoria.murphy@ncri.org.uk with any queries.

Deadline for registration: **Friday 10 February**

Attendance is free and refreshments will be provided.
